PROFESSIONAL SUMMARY

Results-driven Computer Engineering undergraduate (GPA: 3.6) with hands-on experience designing, building, and deploying end-to-end full-stack software products. Proficient in React, Node.js/Express, TypeScript, C++, and cloud deployment on Microsoft Azure with automated CI/CD workflows. Proven record of successful team collaboration in fast-paced hackathons and Agile/Scrum environments; eager to bring software engineering competence and ownership-driven execution to a Software Engineering Internship.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, TypeScript, HTML5, CSS3, Responsive Web Design

Backend & APIs: Node.js, Express.js, RESTful API Development, OTP-based Authentication & Authorization

Databases: SQL (Relational), MongoDB (NoSQL), Upstash Redis (Caching)

Cloud & DevOps: Microsoft Azure (Linux VM), CI/CD (GitHub Actions), Docker, Git/GitHub

Methodologies: Data Structures & Algorithms, Agile/Scrum Development

TECHNICAL PROJECTS

Velora — Cloud-Based AI Shopping Assistant

May 2026 – Jul 2026

Individual Project

- Designed and developed a multilingual conversational AI shopping platform utilizing React, Express.js, MongoDB, and Redis cache.
- Provisioned and configured a Linux virtual machine on Microsoft Azure, implementing a CI/CD pipeline via GitHub Actions that automated testing and reduced deployment cycle times by 80%.
- Integrated LangChain, AI agents, and OpenAI/Gemini APIs using a modular Prompt OS architecture to power real-time, context-aware product discoveries.

Tech Stack: React, Express.js, MongoDB, Upstash Redis, Microsoft Azure, GitHub Actions, LangChain, AI Agents

Personalized Study Buddy (NotebookAI) — AI-Powered Learning Platform

Sep 2025 – Dec 2025

Team Project | CodeBlast (Moitel) Hackathon (Top 10 Team)

- Co-developed an interactive, AI-driven learning platform in a fast-paced hackathon, ranking in the Top 10 out of 50+ competing teams.
- Engineered a RAG (Retrieval-Augmented Generation) pipeline using LangChain and OpenAI/Gemini APIs, allowing users to upload PDF notes and receive personalized interactive tutoring, study materials, and customized quizzes.
- Architected and built frontend dashboards, recommendation logic, progress tracking, and secure OTP-based authentication.

Tech Stack: React, Node.js, Express.js, MongoDB, LangChain, OpenAI API, OTP Authentication, Agile

SmartCloudStorage — Custom C++ Storage Engine & Backend

Sep 2025 – Dec 2025

Team Project

- Co-engineered a systems-level custom cloud storage backend in C++17 from scratch, implementing optimized data structures including BST, graphs, linked lists, and hash tables.
- Developed a custom lightweight HTTP/REST API gateway and HTML/CSS/JavaScript interface to manage access permissions, file retrieval, and data recovery operations.
- Achieved sub-millisecond route handling times for file metadata operations through custom memory management.

Tech Stack: C++17, Custom REST API, Data Structures & Algorithms, HTML, CSS, JavaScript

PROFESSIONAL EXPERIENCE

ICT Teacher | Technical Support

Sep 2025 – Dec 2025

Telecommunications Regulatory Commission of Sri Lanka (TRCSL)

Mullaitivu, Sri Lanka

- Designed and delivered a computer science and digital literacy curriculum for 50+ student learners, achieving a 100% course completion rate.
- Maintained high system availability (99%) for lab infrastructure by diagnosing and resolving complex hardware and network configuration bottlenecks.

EDUCATION

University of Ruhuna <i>B.Sc. Engineering in Computer Engineering (3rd Year)</i> - GPA: 3.6 / 4.0 - Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Software Engineering	Galle, Sri Lanka <i>2023 – 2028 (Expected)</i>
Mu/Puthukkudiyiruppu Central College <i>G.C.E. Advanced Level (Physical Science) — Z-Score: 1.6302 District Rank: 4</i> Grades: Chemistry (A), Physics (B), Combined Mathematics (B)	Mullaitivu, Sri Lanka <i>Completed</i>

CERTIFICATIONS & AFFILIATIONS

Docker Foundations Professional Certificate Docker
Python for Data Science & Machine Learning LinkedIn Learning
Member, Innovation Club (Jan 2026 – Present) University of Ruhuna — Collaborated with 15+ student developers on design reviews, technical workshops, and coding challenges using Agile principles.
